Uses and Tips	<ul style="list-style-type: none"> ✓ Pure Date Syrup is an excellent natural sweetener. ✓ Very versatile and can be used wherever molasses, treacle, syrup or sugar are traditionally used. ✓ Date syrup can be used instead of honey on bread or toast, instead of maple syrup on pancakes, or for sweetening of coffee and tea. ✓ Use to make flapjacks, biscuits and cakes or to flavour ice cream, yoghurt or muesli. ✓ Date syrup can replace sugar, in part or completely, in jams and marmalades. ✓ Date syrup blends well with a range of ingredients to give rise to a variety of sauces for snacks and main meals. ✓ Date syrup is popular in the East where the abundance of dates makes date syrup an obvious sweetener of choice. 	
Frequently Asked Questions	<p>Q. Why should I use Date Syrup instead of maple syrup or treacle?</p> <p>A. Date syrup has a particular flavour that is different from Maple, Treacle or Molasses. It is extremely well liked by those that have the chance to taste it, children as well as adults. Not as sweet as Maple, more mellow than Molasses and more flavour than treacle, it is pretty exciting!</p>
