

Eco-Balloons

Party with peace of mind!

A world first! The latex used in the manufacture of these high quality balloons is sourced in conformance with the Forest Stewardship Council (FSC) regulations **that ensure we are not contributing to deforestation** and under fairly traded conditions. Its producers have received a fair trade premium to help improve their living and working conditions.

100% BIO-DEGRADABLE Eco-Balloons are made from natural latex, tree sap that naturally breaks down when exposed to light and air. Decomposition of a latex balloon takes approximately 6 months.

...and if your compost needs it, you can throw the balloon box on it too! Because our boxes are made from 100% FSC certified board and use vegetable-based inks, they can be recycled or composted with your normal garden waste! Amazing!

Bespoke and bulk quantities are available to order – minimum quantity 500 balloons. 2 weeks from order to delivery. Logos are printed in one colour only. A choice of one sided or double sided print is available at no additional cost.

Community code	8721
Suitable for Vegans	Yes
Bio-degradable	Yes
Inner barcode	5 012246 110110
Outer barcode	TBC
Unit weight	107g approx
Case weight	1.1kg approx
Unit dimensions	148 x 118 x 40mm
Case dimensions	250 x 160 x 210mm
Case size	10 x 25 balloons
Country of origin	Pakistan
Cases per layer	TBC
Cases per pallet	TBC
Packaging	Card, seal
RSP	£1.99
