

New!

Deforestation contributes more than 20% of green house gas emissions. **Organic Meltdown** Chocolate Bars present the 'Sweet Solution' to climate change. For every bar sold, **Organic Meltdown** chocolate in conjunction with the *World Land Trust* saves a tropical forest tree from being destroyed forever.

Consumers can even log onto the **Organic Meltdown** website to see their tree using *Google Earth!*

Q. How can each bar of **Organic Meltdown** save 1 tree?
A. **Organic Meltdown** work with the *WLT* to donate funds each month to purchase land which is in danger of being destroyed or logged for farming. The *WLT* audits each piece of land bought to determine the amount of trees on each acre and **Organic Meltdown** then assign each tree to one bar by a unique code found in each wrapper.

So...not only is **Meltdown Chocolate** Organic and Fairtrade, but it's great for the environment too.

Treating yourself has never been so good!
