

Community Foods Ltd. Environmental Policy

Community Foods Ltd., as part of its commitments to customers and shareholders, recognises its obligations to comply with the law and relevant regulations to carry out its business in an environmentally sound manner, as far as possible.

This company-wide policy is part of our commitment to minimising the impact of our operations on the environment to as low a level as is practically and economically feasible.

Our major direct environmental impacts are:

Major impact no. 1 Energy use
Major impact no. 2 Material and water use
Major impact no. 3 Transport emissions
Major impact no. 4 Waste management

Our major indirect environmental impacts are:

Major impact no. 1 Shipping and transport.

This policy will be pursued through:

Management of energy use; Ensuring we monitor our energy consumption as a business and where possible improve efficiency and utilise renewable forms of green energy.

Management of material and water use: Ensuring we make efficient use of resources, striving to reduce our use of materials including paper and stationery, and minimising the use of water in our premises.

Supply chain: Considering the environmental performance of companies in our supply chain and where financially viable, giving preference to products and suppliers with least environmental impact.

Waste management and recycling: Striving to apply the waste hierarchy (reduce, re-use, recycle) in all our activities; and

Community Foods Ltd will make this policy and performance measures available to staff through monthly management meetings. This policy will be pursued by senior management and made available to all interested parties. Community Foods Ltd. will review our progress and annually update our environmental policy and targets in accordance with best practice.

This policy will be pursued by senior management and made available to all interested parties.

Martin Rome
