

Community Foods Ltd. Transport and Emissions Policy

Community Foods Ltd is an importer, distributor and packer of ambient stable foodstuffs, the vast majority of products traded are not grown in the United Kingdom.

Within the confines of these operations, the directors and management are committed to operating in a manner which minimises our emissions and maximises the efficiency of transport used in the conduct of our business

We aim to meet these expectations as follows:

- To record where possible the total mileage of our transport activities
- To record where possible our total utilisation of fuels relating to transport
- To use where practical and possible the most environmentally efficient forms of transport
- To undertake regular audits in order to understand ways and means to reduce our transport movements and improve efficiency
- To regularly benchmark standards

Community Foods Ltd. will make this policy and performance measures available to staff through monthly management meetings.

This policy will be pursued by senior management and made available to all interested parties.

Vince Andrew

Operations Director
